Training Courses	Introduction to ICSI Biopsy Techniques	See <a href="http://origio.com/traininglab">origio.com/traininglab</a> for availability

## Committed to every aspect of micromanipulation

The CooperSurgical family of fertility companies is comprised of global leaders in IVF and reproductive genetics. Our experience working with embryologists in laboratories across the globe, and offering a portfolio of products for the entire ART process, means we can help simplify ICSI and biopsy work within your laboratory. Working in this way helps increase the likelihood of success and achieve consistent results.
